

Dear Colleagues:

It is my pleasure to announce the “*Intensive Course on Urogenital and Breast Pathology*”, hosted by the Hellenic Division, IAP from April 22 to 24, 2018 to be held in Agria, Greece, a village by the seashore of Mount Pelion. According to the Hellenic Mythology, the Centaur Chiron, teacher in Medicine of Aesculapius, used to live in the forests of this mount.

All of invited speakers are internationally recognized pathologists, panelists of the WHO or/and authors of the tumor classifications Blue Book series; their contribution guarantees an outstanding Conference.

Therefore, on behalf of the IAP, I would like to invite you to attend this outstanding and high educational scientific event.

Attached please find a 6 pages .pdf file including all information of this event. For on-line registration, the official web site <https://hd-iap.gr/> is under construction, hoping to be activated soon. Meanwhile, you can use the registration form of the .pdf file (2nd page) and pay the fee to the indicated bank account. Then, scan the completed registration form and the receipt of bank payment and submit them to the Hellenic Division by e-mail: hellenicdivisionofiap@gmail.com.

For hotel accommodation, please contact directly to VALIS hotel by e-mail: reservations@valisresort.gr. Do not miss the **early bird booking offer** for a full board accommodation we have negotiated especially for you (**expiring date: March 20, 2018**).

I would very much appreciate it if you could distribute this announcement to the members of your IAP Division and to other pathologists of your country that we do not have their e-mail addresses.

I look forward to welcome you to Agria.

With kind regards,

George Kontogeorgos MD, PhD

President, IAP
